THE PROMISE AND PERILS OF PARTICIPATORY POLICY MAKING

DOWNLOAD

International Labour Office. Paperback. Book Condition: new. BRAND NEW, The Promise and Perils of Participatory Policy Making, Lucio Baccaro, Konstantinos Papadakis, Do civil society organizations representing groups such as women, migrants, indigenous people, people with HIV/AIDS, or the poor have a stronger influence when directly involved in policymaking than when they try to influence policymakers from outside? Does participatory policymaking enhance the efficiency and equity of public policy? And does the best argument prevail in such participatory processes, or is it the strongest argument that ultimately carries the day? This volume explores these questions by contrasting the theoretical underpinnings of participatory governance and deliberation theories with empirical findings from extensive field research in South Africa. The country has introduced numerous participatory policymaking institutions since the early 1990s. This book argues that civil society organizations might be unable to exert real influence over policymaking unless they possess mobilization capacities and can exert a credible exit option from participatory structures.
