Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The average cost to count each housing unit rose from \$70 in 2000 to \$97 in 2010 (in constant 2010 dollars). While the U.S. Census Bureau (Bureau) made changes to its budget structure from 2000 to 2010, they did not document the changes that would facilitate comparisons over time and cannot identify specific drivers of this cost growth. According to GAO s Cost Estimating and Assessment Guide, an agency can strengthen its ability to control costs by using available cost data to make comparisons over time and identify and quantify trends. The Bureau faces the fundamental challenge of striking a balance between how best to control costs without compromising accuracy. However, the Bureau s inability to identify specific actionable factors affecting past growth will make it difficult for the Bureau to focus its efforts to control costs for the 2020 Census.
